

Mission Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources: \$7000.00

Source of Funding: CSP Grant

Other

- Other schools implementing SIPPS , ARI coach, ARI training and support

Critical Initiative

SIPPS Phonics Instruction- SIPPS is the phonics component of i3 Academy's literacy program. We will take an all hands on deck approach to phonics based on initial results of the placement assessment.

Key Measures

- 70% of students advance by one SIPPS level.

Intended Outcome(s)

- Accelerated Learning

Objective

Assess where students are academically in math and literacy, and strategically align students for small group instruction to meet specific needs

Vision We envision a world in which all learners excel in a global society.

Mission Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources: \$1000.00

Source of Funding: CSP Grant

Other

- Math coaches, Math Lab team

Critical Initiative

Assessing Math Concepts and Math Assessments- An initial math assessment was designed/coordinated to mirror our literacy assessment to help teachers determine small group instruction.

Key Measures

- 60% of students tracking to be on math grade level

Intended Outcome(s)

- Accelerated Learning

Objective

Assess where students are academically in math and literacy, and strategically align students for small group instruction to meet specific needs

Vision We envision a world in which all learners excel in a global society.

Mission Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources: \$5000.00

Source of Funding: ARI for K-3

Other

- iReady training

Critical Initiative

iReady benchmark assessment- students took the iReady benchmark assessment to help support an additional data point for student instructional design.

Key Measures

- 60% on track for grade level by end of year

Intended Outcome(s)

- Accelerated Learning

Objective

Assess where students are academically in math and literacy, and strategically align students for small group instruction to meet specific needs

Vision We envision a world in which all learners excel in a global society.

Mission Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources:

Source of Funding:

Other

Critical Initiative

Create learning environments that are conducive to learning with technology and support parents at home in creating those learning environments. Eliminate barriers to learning due to technology access

Key Measures

- 100 % of students have equitable technology access

Intended Outcome(s)

- Technology access for educators and students

Objective

Utilize technology and learning management systems to create a blended learning environment, where students can work at their own pace

Vision We envision a world in which all learners excel in a global society.

Mission

Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources: \$3000.00

Source of Funding: CSP grant

Other

- Google for Education, Seesaw Learning

Critical Initiative

Implement learning management systems that support self-directed learning (Google Classroom and Seesaw)

Key Measures

- 100 % of students active in LMS

Intended Outcome(s)

- Students and teachers proficient in Learning Management Systems

Objective

Utilize technology and learning management systems to create a blended learning environment, where students can work at their own pace

Vision

We envision a world in which all learners excel in a global society.

Mission

Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources:

Source of Funding:

Other

Critical Initiative

Support educators in blended learning and virtual learning professional development

Key Measures

- 90% of faculty comfortable with tech tools

Intended Outcome(s)

- Teachers proficient in technology tools to enhance learning

Objective

Utilize technology and learning management systems to create a blended learning environment, where students can work at their own pace

Vision

We envision a world in which all learners excel in a global society.

Mission

Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources: \$5000.00

Source of Funding: CSP Grant

Other

Critical Initiative

Implement the Caring School Community curriculum: morning and closing circles, and caring school discipline.

Key Measures

- 85% positive response to school culture/climate

Intended Outcome(s)

- Students, families, and staff have a sense of belonging in the i3 family

Objective

To create an environment where students and staff feel safe, supported, and a sense of belonging.

Vision

We envision a world in which all learners excel in a global society.

Mission

Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources: \$500.00

Source of Funding: New School Venture Fund

Other

Critical Initiative

Distribute surveys for social-emotional well being

Key Measures

- 85% positive response to school culture/climate

Intended Outcome(s)

- Students, families, and staff have a sense of belonging in the i3 family

Objective

To create an environment where students and staff feel safe, supported, and a sense of belonging.

Vision

We envision a world in which all learners excel in a global society.

Mission Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources: \$5000.00

Source of Funding: CSP Grant

Other

Critical Initiative

Employee assistance program for staff to access mental health resources as needed.

Key Measures

- 85% positive response to school culture/climate
- 50% access to mental health resources

Intended Outcome(s)

- Staff feeling of support
- Teacher retention

Objective

To create an environment where students and staff feel safe, supported, and a sense of belonging.

Vision We envision a world in which all learners excel in a global society.

Mission Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources:

Source of Funding:

Other

- Community partners to expand enrichment programming

Critical Initiative

Implementation of enrichment programs (Makerspace, World Language, Art, Wellness) and project-based learning to empower learners to be agents of change

Key Measures

- 70% learner engagement on ELEOT

Intended Outcome(s)

- Learner engagement

Objective

To create a highly enriching, highly engaging learning environment that facilitates learners to become empowered agents of change.

Vision We envision a world in which all learners excel in a global society.

Mission

Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources:

Source of Funding:

Other

- Purpose Built Schools team

Critical Initiative

To support project-based and problem-based learning experiences in classrooms and in enrichment/after school/summer programs.

Key Measures

- 85% positive response to school culture/climate
- 70% learner engagement on ELEOT

Intended Outcome(s)

- Student engagement

Objective

To create a highly enriching, highly engaging learning environment that facilitates learners to become empowered agents of change.

Vision

We envision a world in which all learners excel in a global society.

Mission Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources: \$25000.00

Source of Funding: Gifted Grant, CSP Funds

Other

- Purpose Built Schools Team, Drew Charter School

Critical Initiative

STEAM curricula through Makerspace, Science, enrichment program, the gifted and talented program, and other avenues for creative thinking.

Key Measures

- 70% learner engagement on ELEOT
- Project-based learning products

Intended Outcome(s)

- Student critical thinking and problem solving ability

Objective

Critical and creative thinking skills will be fostered through project-based and problem-based learning experiences.

Vision We envision a world in which all learners excel in a global society.

Mission

Our mission is to empower learners to be agents of change for the problems they see in their world.

Resource(s)

Total Financial Resources: \$5000.00

Source of Funding: Robotics Grant, SAIL grant

Other

- Camp Invention Program

Critical Initiative

Makerspace will implement robotics education in grades K-5

Key Measures

- Project-based learning products
- Student participation in robotics education

Intended Outcome(s)

- Student problem solving and critical thinking

Objective

Critical and creative thinking skills will be fostered through project-based and problem-based learning experiences.

Vision

We envision a world in which all learners excel in a global society.
